Khan Arms presents the ultimate inertia system semi-automatic shotgun!

Developed and perfected after thousands of R&D hours and thousands of rounds, **MATRIX** guarantees high performance shooting in style. Simplified construction of **KINE-SYS** inertia system distribute forces optimally to maximize consistency and reliability with all types of ammunition. Strong but lightweight system components and materials ensure a well-balanced handling and durability at the same time. Since there is much less pressure loss (compared to gas-operated systems) **MATRIX** has a stronger impact and penetration on the target.

Simple, reliable, clean, easy to maintain system of **MATRIX**, combined with eye catching esthetic details and practical user-friendly features, makes it the ultimate semi-automatic shotgun you need !
